**Center for Substance Abuse Treatment (CSAT)** 

# Government Performance and Results Act (GPRA) Client Outcome Measures for Discretionary Programs August 2022

Public reporting burden for this collection of information is estimated to average 36 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information, if all items are asked of a client/participant; to the extent that providers already obtain much of this information as part of their ongoing client/participant intake or follow-up, less time will be required. Send comments regarding this burden estimate or any other aspect of this collection of information to SAMHSA Reports Clearance Officer, Room 15E57A, 5600 Fishers Lane, Rockville, MD 20857. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The control number for this project is 0930-0208.

#### B. SUBSTANCE USE AND PLANNED SERVICES

#### 1. USING THE TABLE BELOW, PLEASE INDICATE THE FOLLOWING:

### A. THE NUMBER OF DAYS, IN THE PAST 30 DAYS, THAT THE CLIENT REPORTS USING A SUBSTANCE.

**[DO NOT READ TO CLIENT]** The client should be encouraged to list the substances on their own. If they are unsure, the list from the table below can be read to the client. Please note that not all substance use is considered harmful or illicit – it may be that a substance is prescribed by a licensed provider, or that the client uses the substance in accordance with official, national safety guidelines. In such instances, clarification from the client should be sought, but if the substance is only taken as prescribed or used on each occasion in accordance with official, national safety guidelines, then it is not considered misuse. If no use of a listed substance is reported, please enter a zero ('0') in the corresponding 'Number of Days Used' column. If the client refuses to answer the question, then select "REFUSED".

#### B. THE ROUTE BY WHICH THE SUBSTANCE IS USED.

**[DO NOT READ TO CLIENT]** Mark one route only for each substance used. But, if the client identifies more than one route, choose the corresponding route with the highest associated number value (numbers 1-6). Responses should capture the past 30 days of use.

During the past 30 days, how many days have you used any substance, and how do you take the substance?
